VALUABLE FEATURES

Central management, easy to deploy and install, AD integration, set-and-forget because it just works.

IMPROVEMENTS TO MY ORGANIZATION

CrashPlan has allowed us to ease the minds of our executive users when they are mobile. The software backs up and maintains their data from anywhere and the end users have access as well.

USE OF SOLUTION

Going on 2 years.

CUSTOMER SERVICE AND TECHNICAL SUPPORT

Customer Service: Customer service is fantastic as they are very quick to respond and will help you out with any and every question. Technical Support: Technical support is great as well. Their online documentation is perfect and answers nearly every question you could imagine.

PREVIOUS SOLUTIONS

No.

INITIAL SETUP

It was very straightforward. Very simple to install: install the management console with some light configurations. Then install the agent on the endpoint and enter the account name and registration code and you're off.
