### **WHAT IS OUR PRIMARY USE CASE?**

I used CrossBrowserTesting for testing on different browsers on desktop and phone environments with different browser versions for our sites.

### **HOW HAS IT HELPED MY ORGANIZATION?**

CrossBrowserTesting helps a lot with the responsive testing in different mobiles and browsers and has good tools for our testing like taking videos and screenshots.

### **WHAT IS MOST VALUABLE?**

The local connection is pretty awesome at the moment of testing the developments created at home, and the tool getting the proof of your testing is awesome (videos and screenshots).

### **WHAT NEEDS IMPROVEMENT?**

I had some problems with the local connection, but there is someone that can help us always on customer support chat. They solved my problem.

### **FOR HOW LONG HAVE I USED THE SOLUTION?**

Less than one year.

### **HOW ARE CUSTOMER SERVICE AND TECHNICAL SUPPORT?**

The customer service was pretty great. Andrew made sure to get all the information needed to send my issue to the technical support.

**CrossBrowserTesting**

**WHICH SOLUTION DID I USE PREVIOUSLY AND WHY DID I SWITCH?**

No. CrossBrowserTesting is my first tool and a pretty good one to use anytime.
