### **WHAT IS OUR PRIMARY USE CASE?**

GTM and LTM are the primary uses of the solution. Our company has two active data centers and a data center that is being activated. F5 BIG-IP helps us a lot.

### **HOW HAS IT HELPED MY ORGANIZATION?**

Global DNS, Link Controller, and Server Load Balancer provide our company service with high availability.

### **WHAT IS MOST VALUABLE?**

Valuable features include Link Controller and Server Load Balancer with cloud support and application enhancement security.

### **WHAT NEEDS IMPROVEMENT?**

Internet and cloud support could be improved. Security enhancement should be more user friendly.

### **FOR HOW LONG HAVE I USED THE SOLUTION?**

More than five years.
