Abdy Sanjur

Gerente de Seguridad Informática at a financial services firm with 1,001-5,000 employees

WHAT IS OUR PRIMARY USE CASE?

I use Fortinet Fortigate. First of all, I use them as perimeter firewall. Secondly, I use it for a data center firewall for internal segmentation.

HOW HAS IT HELPED MY ORGANIZATION?

The main benefit is the grouping of our security monitoring. I have all of my solutions from the same brand, Fortinet. I have only one console, one dashboard, all the security incidents that occurs on the network.

WHAT IS MOST VALUABLE?

The Fortinet FortiGate product has original features that we use. These features include: IPS Anti-Malware Web Application Firewall

WHAT NEEDS IMPROVEMENT?

I am looking to implement key authentication for admin access for the Fortinet product.

FOR HOW LONG HAVE I USED THE SOLUTION?

Three to five years.

HOW IS CUSTOMER SERVICE AND TECHNICAL SUPPORT?

The technical support is great.

HOW WAS THE INITIAL SETUP?

I was involved in the initial setup. When we decided to use Fortinet, we were already a customer of Fortinet. So, my previous firewall also was Fortinet and the experience with the brand and with the provider was very good. We have no issues. We like to keep with the same brand.

Fortinet FortiGate

WHAT WAS OUR ROI?

Fortinet is a very good solution. It would not be a mistake to choose Fortinet as a solution.

WHICH OTHER SOLUTIONS DID I EVALUATE?

In the past, we had evaluated Palo Alto and Cisco as possible solutions.
