Tanya Duprey

WHAT IS OUR PRIMARY USE CASE?

Our primary use case is remote access for working from home, and DR/BC (Disaster Recovery and Business Continuity) needs.

HOW HAS IT HELPED MY ORGANIZATION?

This solution has allowed us to have a highly flexible remote access solution in DR/BC situations.

WHAT IS MOST VALUABLE?

The features that we have found most valuable are that it is easy to implement, it's user-friendly, inexpensive, and keeps users in their known local desktop environment.

WHAT NEEDS IMPROVEMENT?

This solution requires that the PC is "on" in order to reach it remotely. If the PC is hung then it requires a reboot.

FOR HOW LONG HAVE I USED THE SOLUTION?

More than five years.
