VALUABLE FEATURES:

- Data discovery
- Set analysis
- Adhoc reporting
- Drill down options
- Flexibility
- In-Memory technology
- Quick learning curve
- Easy to deploy

IMPROVEMENTS TO MY ORGANIZATION:

The product enables top management with better decision making if utilized properly.

ROOM FOR IMPROVEMENT:

QlikView should not loose its original flavour. They should stop trying to emulate other BI products and mould their own product.

USE OF SOLUTION:

I'm using the QlikView local client.

OTHER ADVICE:

It is best suited for Dashboarding, Analysis and Reporting. Do not try to re-implement everything from a previous BI product if you had one. Ensure that the QlikView features & functionality are properly utilized to get the best out of it.
