Senior Business Analyst, Big data at a manufacturing company

Amanda Zhou

WHAT IS OUR PRIMARY USE CASE?

We mainly use SAP BO to do operation and financial reporting. More than 100 reports were created on it. User can easily access all reports through the BO web link (portal).

HOW HAS IT HELPED MY ORGANIZATION?

Because our ERP system is SAP ECC, and SAP BW is the data warehouse, BO is the best choice to integrate with either SAP ECC or SAP BW.

WHAT IS MOST VALUABLE?

Good, powerful functions in the table format report compared with Microsoft Power BI. It can process big volumes of data fast.

WHAT NEEDS IMPROVEMENT?

It should have a better integration with Excel. Currently, we can use Explore to do data discovering, but cannot generate charts.

FOR HOW LONG HAVE I USED THE SOLUTION?

Three to five years.
