WHAT IS OUR PRIMARY USE CASE?

The NSA 2400 is used as our edge device. We subscribe to two services. Comprehensive Gateway Security Suite Anti Spam Service

HOW HAS IT HELPED MY ORGANIZATION?

The ability to configure the appliances for efficient usage. Content filtering Anti-Spam URL blocking Bandwidth management

WHAT IS MOST VALUABLE?

Content filtering reduces the load on the available bandwidth and restricts employees from using distracting websites on the job, which leads to more productive hours. Anti-Spam reduces unwanted mail on corporate exchange services.

WHAT NEEDS IMPROVEMENT?

After-sales support and hands-on training facilities are poor or not available in my country. Improving these will help users like me optimally manage and administer this solution.

FOR HOW LONG HAVE I USED THE SOLUTION?

More than five years.
